

HF-636P 06/06/2018

MIDI Hi-Fi

Instruction Manual
Model Ref: HF-636P

Introduction

Thank you for choosing this MIDI Hi-Fi System. This product is manufactured to the highest standards of performance and safety.

Before use, please read this manual carefully. It gives important instructions about safety, use and maintenance of your device.

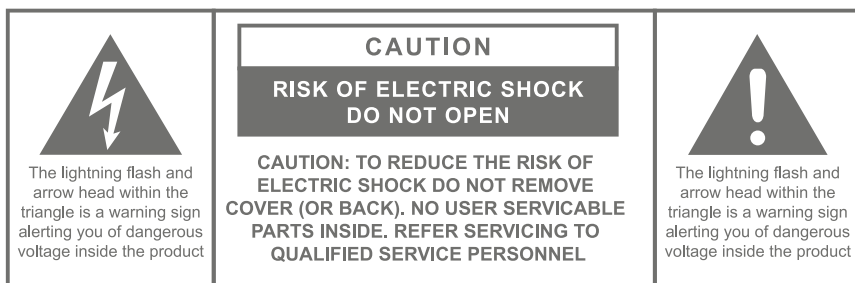

Remove all packaging material. You may wish to keep the packaging for future use or storage of your device. Alternatively, dispose of accordingly.

Important Safety Information

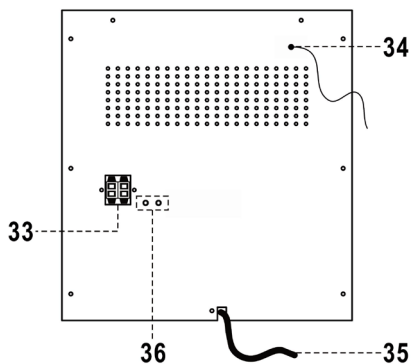

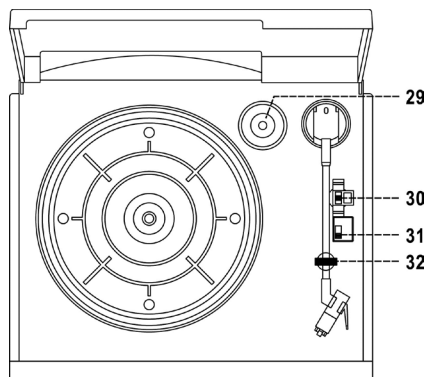

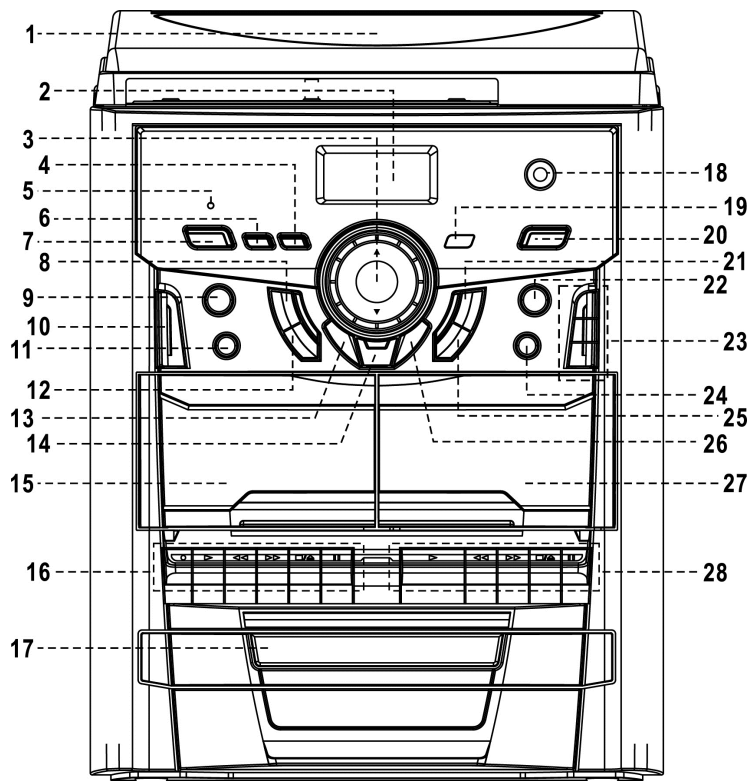

WARNING - To reduce the risk of fire, electric shock, or injury:

1. This appliance is for domestic use only. Do not use outdoors or on wet surfaces.
2. Do not handle the plug or appliance with wet hands.
3. Do not immerse the main body in water.
4. This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, if they have been given supervision or instruction concerning the use of the appliance in a safe way and understand the hazards involved.
5. Children must not play with the appliance.
6. Cleaning and user maintenance shall not be made by children unless they are older than 8 and supervised.
7. Keep the appliance and its cord out of reach of children less than 8 years old.
8. This product is not a toy.
9. Do not use the appliance if any parts appear to be faulty, missing or damaged.
10. Always switch off at the mains supply before carrying out any cleaning, performing user maintenance or changing accessories.
11. Do not use the appliance if it has been dropped or damaged in any way.
12. Check to ensure that the electricity supply matches that shown on the rating plate.
13. Only use the attachments/accessories supplied with the product or recommended by Audial.
14. If the supply cord is damaged, it must be replaced by a qualified service agent in order to avoid a hazard

15. Only use this appliance for its intended domestic use. Audial will not accept any liability if the appliance is subject to improper use, or failure to comply with these instructions.
16. Keep the appliance and its power supply cord away from heat or sharp edges that could cause damage.
17. Keep the power supply cord away from any parts of the appliance that may become hot during use.
18. Do not disconnect the appliance from the mains power supply by pulling the cord, switch it off and remove the plug by hand.
19. Do not move the appliance when it is in use.
20. Use of an extension cord with the appliance is not recommended.
21. This appliance should not be operated by means of an external timer or separate remote control system.
22. Keep the appliance away from flammable materials.

CAUTION: Usage of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

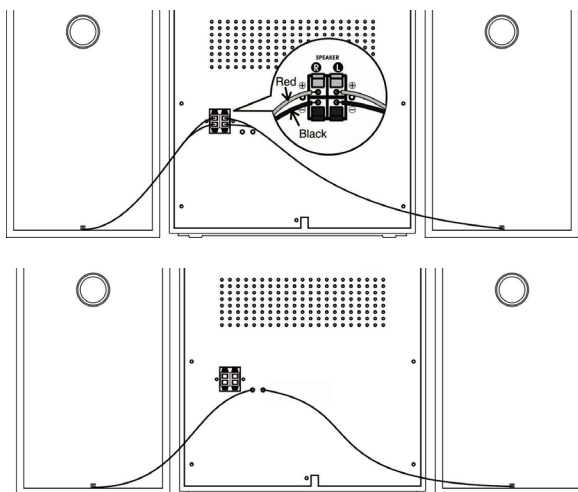

IMPORTANT: Since movement of the CD mechanism and the sensitive circuitry may cause interference to the radio tuner nearby, switch this unit off while operating other radio devices.

BEFORE USE

- Unpack all parts and remove protective material.
- Do not connect the unit to the mains before checking the mains voltage and before all other connections have been made.
- Do not cover any vents and make sure that there is a space of several centimeters around the unit for ventilation

CONNECTION

1. Connect the speaker wire from included speaker box to the speaker terminal (33) of the main unit and connect lighting wire with the 3.5mm plug of the speaker box to the light wire jack (36) of main unit as well.
2. Connect the power cord (35) to AC outlet, the unit will go into standby mode and Standby LED (5) lights up.
3. Turn on the unit by On/Standby button (7). If the LCD display (2) is on with backlighting, it means the power supply is normal. Now your system is ready to play the music.

SETTING THE CLOCK

1. Set unit in standby mode by On/Standby button (7).
2. Press the "Mem/clk-adj" button (14), the first second digit of "00" is flashing. press ◀◀ or ▶▶ button (12/25) to set the correct hour. Press "Mem/clk-adj" button (14) to store the correct hour.
3. The third & fourth digit of "00" is flashing, press the ◀◀ or ▶▶ button (12/25) to set the correct minutes. Press "Mem/clk-adj" (14) to store the correct minute.
4. To select 12/24 hours display mode, hold the CD stop button (8) to change mode repeatedly.

Note: the pre-set time will be re-set completely if switching off the main power button on system. you are recommended to switch the system into standby mode for convenience usage.

SETTING THE CLOCK

Manual tuning

1. Set unit in standby mode by On/Standby button (7).
2. Press Tuner button (23) to select tuner mode.
3. Tune to the required station by pressing the Tuning up/down button (12/25).
4. Adjust volume controls to the desired volume level.

Auto tuning

1. Press Tuner button (23) and select tuner mode.
2. Press and hold the Tuning up/down button (12/25) for 1-2 seconds and then release
3. The unit will start seeking automatically and stop until a radio station is reached.
4. Repeat step 2 & 3 until the desired radio station is being reached.
5. Adjust volume controls to the desired volume level.

NOTE: when using battery, take off the AC cable from Boombox.

CAUTION:

Remove batteries if they are flat or not being used for a long period of time. Batteries contains chemical substances, so they should be disposed of properly.

Preset stations

You can store up to total of 20 radio stations in the memory.

1. Set to radio mode
2. Turn to the desired radio station by “Manual” or “Auto” tuning method.
3. Press “Mem/clk-adj” button (14) to enable program state.
4. Press “Repeat/M-up” button (26) to select the desired station memory for storage.
5. Press “Mem/clk-adj” button (14) again to confirm the setting.
6. Repeat step 2 to 5 to store other stations.
7. Press “M-up” or “M-dn” button (26/13) to select the preset stations in order.
8. To return normal tuner mode, leave keys free.

Note: The pre-set memories will be cancelled completely if disconnect the main power of the system. You are recommended to switch the system into standby mode for convenience usage.

There are 10 seconds for program state, after 10 sec. this state would release to normal tuner mode automatically. You can overwrite a present station by storing another frequency in its place.

Radio Data System (RDS) (On remote control)

This are the features that display the information released from the radio broadcast which will be shown on the LCD display.

Radio Search mode: Press to active the RDS function and the program service station name (PS) is being displayed.

Radio Search Function: Press to select the program type you want to listen, then press the Tuning up/down button (12/25) to start RDS searching and the unit can automatically detect a suitable station, which is currently broadcasting with program type identification (PTY) signal.

Remark: no “ PS “ nor “ PTY “ appears if no signal is sent.

Programs are classified as follows:

NEWS, AFFAIRS (Current Affairs), INFO (Information), SPORT, EDUCATE (Education), DRAMA, CULTURE, SCIENCE, VARIED, POP M (Pop music), ROCK M (Rock Music), MOR M (Middle of the Road Music), LIGHT M (Light Classical), CLASSICS (Serious Classical), OTHER M (Other Music).

Notes

Program service station name (PS)

This is a name consisting of less than 8 alphanumeric characters, which is displayed in order to inform listeners about the program service being broadcast by the radio station. Example: bbc 1

Program type identification (PTY)

PTY allows selection by one of 15 program types rather than by a station.

Radio text (text)

Information such as the cast list of a play or the title of a song is shown on the display.

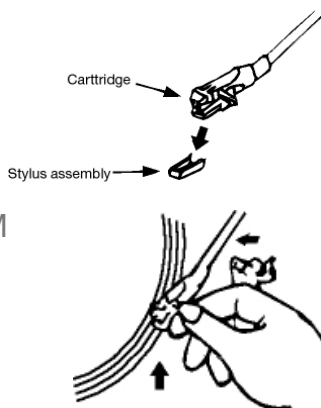

Clock-Timer (CT)

CT function provides an accurate clock signal.

If the clock of the system is not adjusted after plug in, when a RDS clock is received, the system will automatically update the system clock to the received RDS clock time. The system clock is now adjusted.

FM & FM-stereo reception

- Set the FM mode selector at “MONO” position. Programs are received in mono mode. In particular when stereo signals are weak. It is preferable to receive the program in mono.
- Set the FM mode selector at “ST” position for receiving stereo programs. The “ST” indicator will appear on LCD to show FM stereo program is receiving.
- FM : The receiver has a build-in FM wire antenna hanging at the rear cabinet. This wire should be totally unravelled and extended for best reception.

Phono

Note:

- *Remove the stylus protector.*

- *Be sure that the tone arm is being detached from the tone arm rest before operating, and re-secured again afterwards.*
1. Press Phono button (23)
 2. Set the speed selector (30) to the proper position depending on the record to be played.
 3. Place the record on the platter (use the spindle adaptor (29) if required).
 4. Lift the tone arm from the rest and slowly move it to the record side. The platter will begin to rotate.
 5. Place the tone arm to the desired position of the record.
 6. Adjust the volume to the desired level.
 7. At the end of record, the platter will automatically stop rotating. Lift the tone arm from the record and return it to the rest.
 8. To stop manually, lift the tone arm from the record and return it to the rest.

Remark: as some kind of record the auto-stop area was out of the unit setting, so it will stop before the last track finish. In this case, select the Auto-stop switch (31) to “ off “ position, then it will run to the end of the record but will not stop automatically (turn off the unit by power button or switch back the auto-stop switch (31) to “ on “ position to stop the platter rotate). Then put back the tone arm to the rest position.

Playing Compact Disk

Getting started
